

BRIS

Business register interconnection system

10th Congress of Women's Entrepreneurship of Adriatic and Ionian Area

Ravenna 16 November 2017

BRIS - Interconnection of EU Business register

Business Registers Interconnection System (BRIS) is:

- ➔ a joint effort by EU governments and the European Commission;
- ➔ EU platform (E - Justice) to interconnect Business register;

From June 2017 business registers in all EU countries are interconnected.

Through BRIS is possible:

- ➔ to search for information on companies registered in any EU country, Iceland, Liechtenstein or Norway;
- ➔ the registers can share information on foreign branches and cross-border mergers of companies.

Legal basis

- Directive 2012/17/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 13 June 2012;
- Regulation (EU) 2015/884;
- National implementing acts;
- ➔ Role of Unioncamere and Chamber's system to make BRIS a reality.

BRIS - Legal basis

- ➔ Directive 2012/17/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 13 June 2012
- ✓ Interconnection system of European business registers to be applied on cross-border transactions and 'branches' on 8 June 2017;
- ✓ The Directive concerns only limited liability companies and at least the following information will be free of charge:
 - ✓ the name and legal form of the company;
 - ✓ the registered office of the company and the Member State where it is registered;
 - ✓ the company's registration number in the register;

In addition to those particulars, Member States may choose to make further documents and particulars available free of charge.

- ✓ Through the interconnection system, the company's register makes available information about opening and closing (liquidation, insolvency, cancellation of the company) to the register in which the branch is registered without delay;
- ✓ The Commission shall provide the research service of the companies entered in the registers of the Member States provided for in Article 2 of Directive 2009/101/EC

BRIS - Legal basis

➔ Regulation (EU) 2015/884

✓ technical specifications and procedures required for the system of interconnection of registers established by Directive 2009/101/EC of the European Parliament and of the Council

➔ Information about:

- method of communication, communication protocols, security standard;
- methods of exchange of information between the register of the company and the register of the branch;
- list of data to be exchanged between registers,
- structure and use of the unique identifier (EUID: Country code, Register Identifier, Registration number);
- Search criteria;
- Payment modalities;
- Explanatory label;
- Availability of services

BRIS - Some numbers

BRIS is now operational

- ⇒ At launch (June 2017): 10 countries interconnected;
- ⇒ Today: 23 countries connected;

BRIS statistics - number of companies

- ⇒ Total number of entities: more than 20.000.000

BRIS statistics - search

- ⇒ Number of simple searches: more than 90.000
- ⇒ Requests for companies details: more than 48. 000

BRIS - EU Platform

⇒ How the platform works

9. Methods of operation of the system and information technology services provided by the platform

For the distribution and exchange of information, the system shall be based on the following technical method of operation:

```
graph TD; EP[e-Justice Portal] --- ECP[European Central Platform]; ECP --- OAP1[Optional Access Point]; ECP --- MS1[Member State 1]; ECP --- MS2[Member State 2]; ECP --- MSI[Member State i]; ECP --- OAP2[Optional Access Point]; ECP --- MSn[Member State n];
```

For the delivery of messages in the relevant language version, the platform shall provide reference data artefacts, such as code lists, controlled vocabularies and glossaries. Where relevant, these will be translated into the EU official languages. Where possible, recognised standards and standardized messages shall be used.

Find a company General information on find a company

Find a company  

Welcome to the "Find a company" section of the European e-Justice Portal! This allows you to search for and access company information from the national business registers.

In accordance with Directive 2012/17/EU this service is to cover the business registers of all EU countries as well as Iceland, Lichtenstein and Norway. Not all of the Member States are currently connected, but more will be on board soon. If you are looking to access information and/or documents from those registers which are not yet part of the "Find a company" page, you can find links to the respective national registers on our "General information and terms and conditions" page.

Search criteria

Company name: tip

Company registration number: tip

Country Search in all participating countries.

Terms and conditions

I read, understood and agree to the terms of service, the disclaimer for this system, and the rules and conditions applicable to accessing data coming from national registers.

General information on find a company

BRIS - BUSINESS REGISTER INTERCONNECTION SYSTEM

Benefit and advantages of BRIS for economic operators:

- ➔ to increase transparency;
 - ➔ to make cross-border economic transactions simpler;
 - ➔ to protect the interests of both companies operating in foreign markets and consumers;
 - ➔ to support economic growth;
 - ➔ contribution to making the European internal market a reality.
- ➔ valorization of business registers and Chamber's role in an international perspective.**
