

"Cruise Sector in the EUSAIR Area: Challenges and Future Perspectives" Olympia, 27 June 2018

# 3-D UNDERWATER TOURISM FOR **CRUISE SECTOR** IN SMART CITIES AND COMMUNITIES

Prof. Yorgos J. Stephanedes University of Patras

# **BLUEMED Objectives**

Plans, tests, coordinates Underwater Museums, Diving Parks, Knowledge Centers to:

- Increase tourist attractiveness
- Support responsible coastal & maritime tourism
- Support transformation of MED coastal areas and islands:
   Sustainable Tourism —— Smart Tourism

## The Adriatic-Ionian Sea

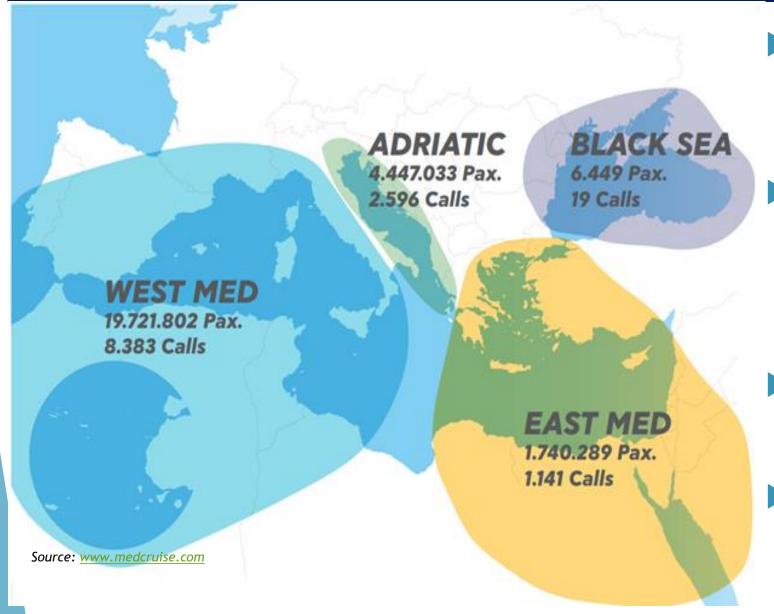

Separates Balkan states Croatia, Slovenia, Montenegro, Albania, Greece from Italian peninsula.

Experience culture across boundaries by cruising along destinations, e.g.

- major historical centers
- villages
- museums
- ancient ruins.

## Need: Capacity expansion of cruise sector in EUSAIR

- Adriatic-Ionian Sea Med cruise market: 2<sup>nd</sup> most important after West Med.
- Venice, Dubrovnik, Corfu, top generators of cruise demand, over 50% of market.
- Cruise pax visits at MedCruise ports: 25,9M
- **► BUT: 2017 ≥ 4%** from 2016.

### Cruise sector: Need for added value

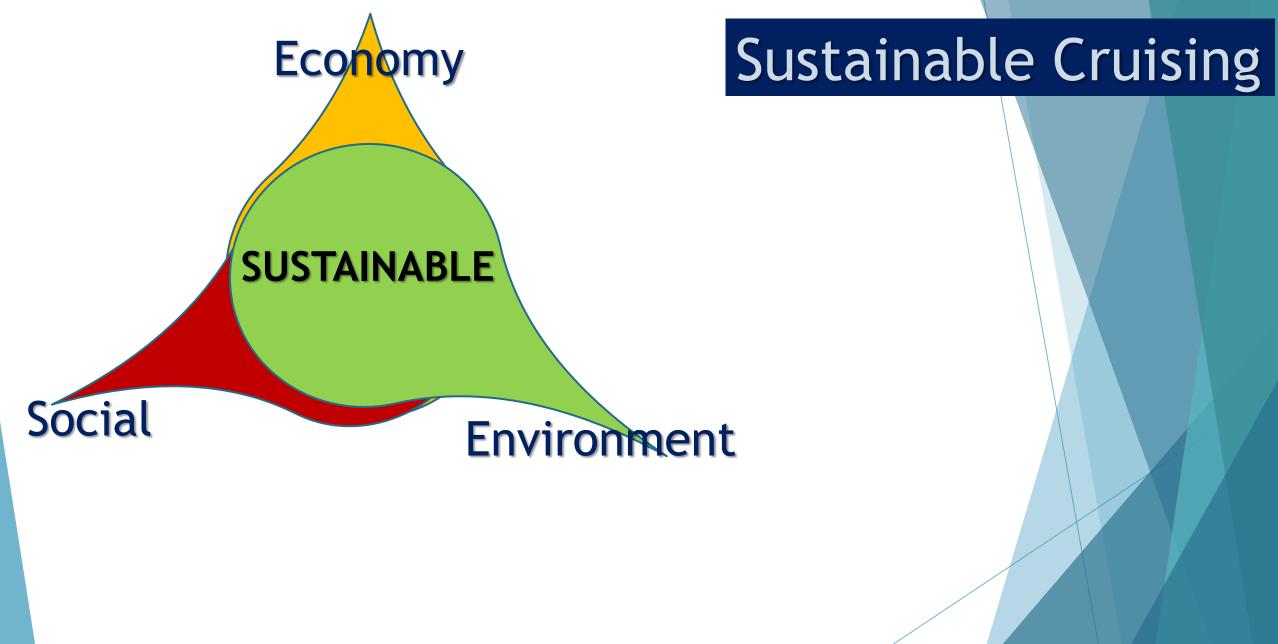

Innovation

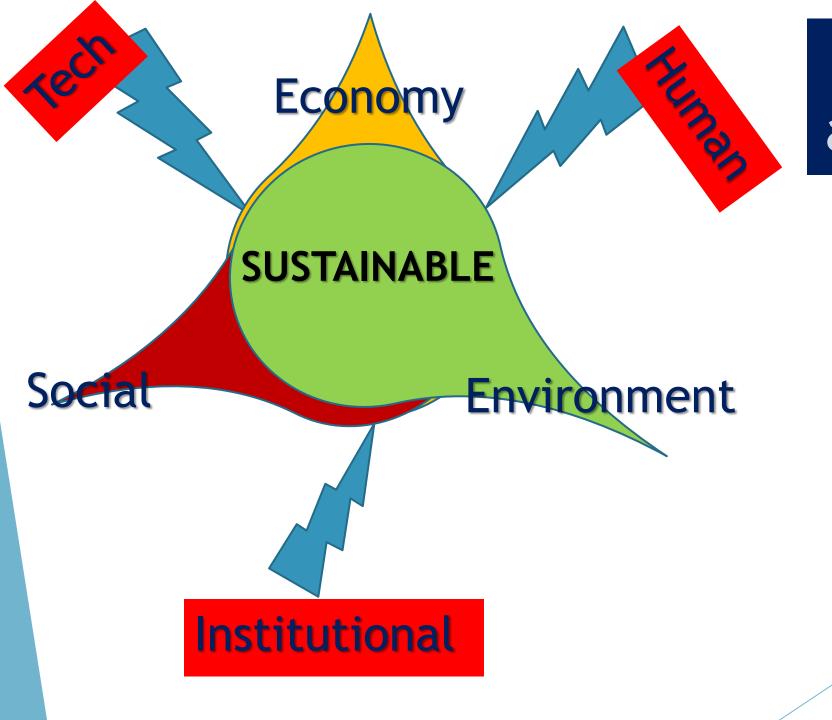

Smart City & Smart Port

Value added Services at-site

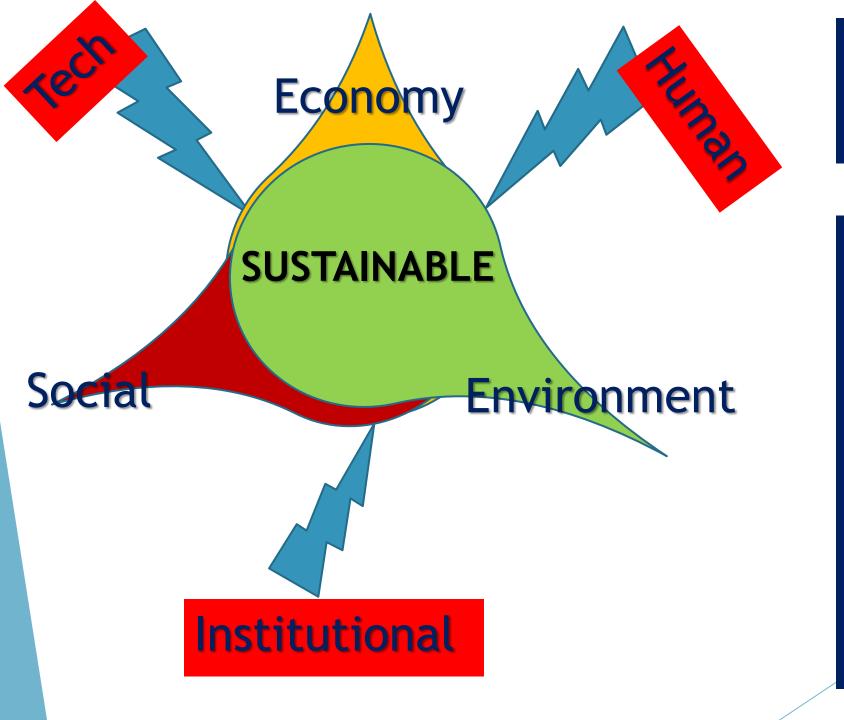

Cruise industry & logistics become sustainable & smart

Thanks to the Ephorate of Underwater Antiquities, Ministry of Culture and Sports & BLUEMED partner

# Smart Cruising and Smart Cities

# Smart Cities Innovations

- ► Environment-Energy
- ► ICT Infrastructure
- ► Mobility & Transport
- ► Health & Education
- Culture
- Citizens Networking

#### BLUEMED potential added value (1/2)

Designs-implements innovative tourism products to expand Med capacity -> expand capacity of cruise sector

Protects-valorises-promotes Med underwater natural resources & cultural heritage:

Sustainable Tourism — Smart Tourism

#### Project methods:

Human

-- Communities, citizens orgnsns, netwrks

Institutional

-- Archaeologists, underwater societs

Technological -- 3-d virtual design, pilots

# BLUEMED potential for added value (2/2)

#### Special Cultural Heritage Project

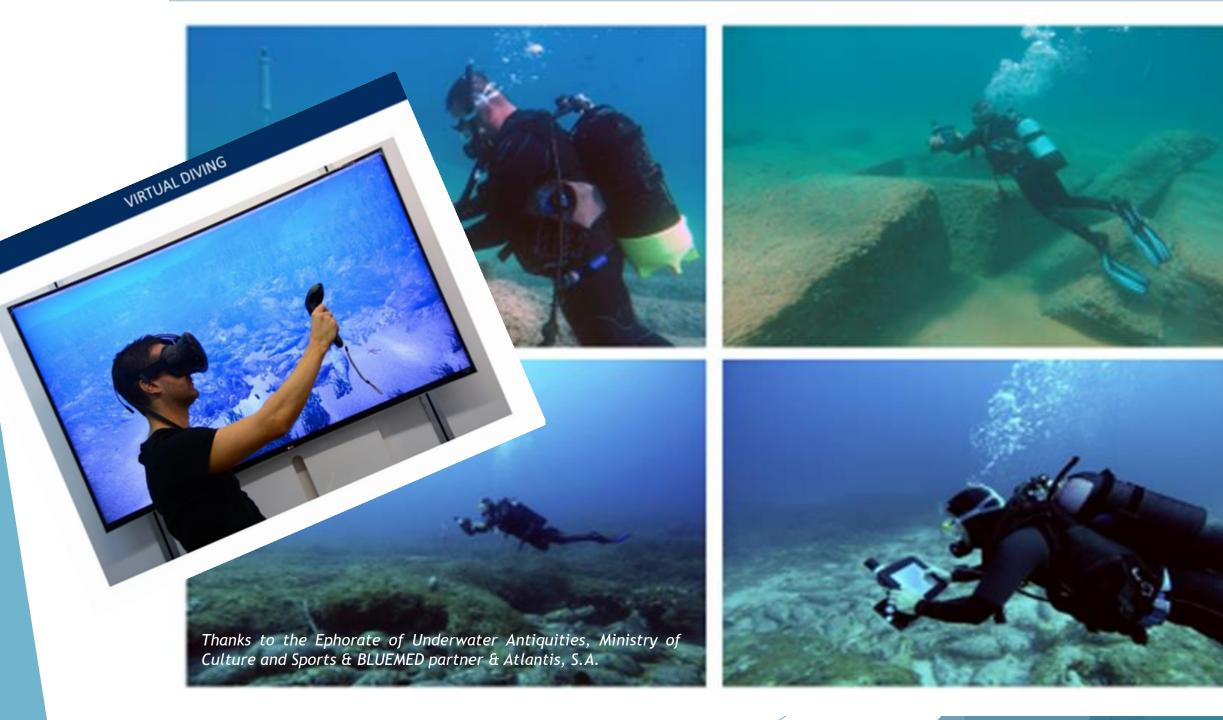

Provides unique experience & knowledge of underwater Med cultural heritage to

- divers/people familiar with diving tourism;
- → non-divers, young, elderly, disabled by
- ➤ 3D immersive techniques digitising sites
- Knowledge Awareness Centers (KACs) & Underwater Museums.

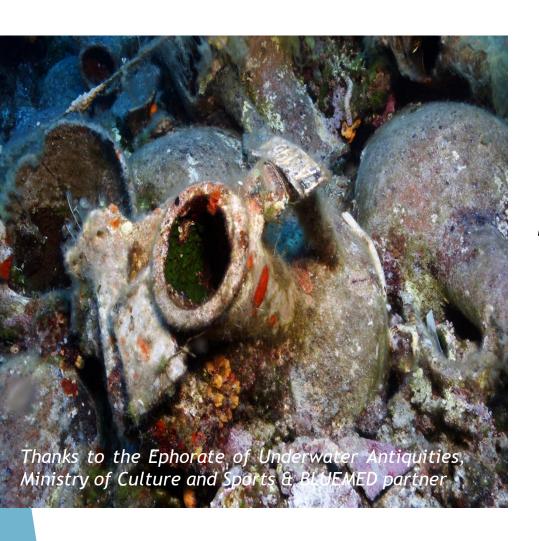

#### **BLUEMED** sites

Innovative technologies for Knowledge Awareness Centers (KACs), Diving Parks & Underwater Museums in

- Capo Rizutto & Baia Bay (Italy)
- W. Pagassitikos Bay & Sporades Isls (Greece)
- Cavtat sites (Croatia).

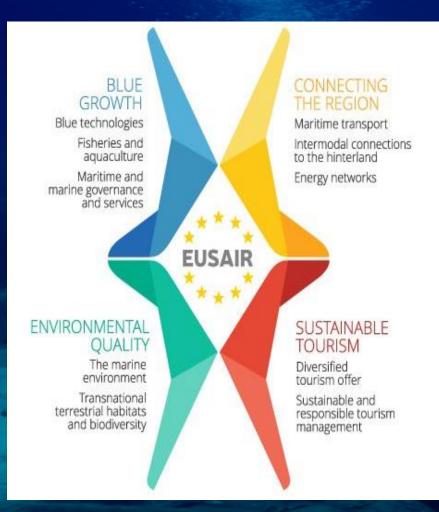

#### **PILOT SITES**

Project co-financed by the European Regional Development Fund

# Impact on EUSAIR

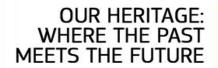

Thanks to the Ephorate of Underwater Antiquities, Ministry of Culture and Sports & BLUEMED partner

- ► BLUEMED complies with EUSAIR pillars & Blue Growth focus areas
- Diversifies cruise sector & enhances yachting

  Defines new business model & links cruise supply to local people, products/sustainable & smart plans
- Smart thematic tourist routes
  Develops & brands new macro-regional tourist routes by mapping/promoting underwater opportunities
- Exploits full potential of smart cruise
- Effects lasting economic benefits

Project co-financed by the European Regional Development Fund
